What is Optional Practical Training?

• Temporary employment authorization that is directly related to an F-1 student’s major area of study

• You can apply for 12 months of post-completion OPT only once at each level of study:
  • Bachelor’s
    • Second bachelor’s students who have already had OPT at the bachelor’s level cannot apply again at that level
  • Master’s
    • Second master’s students who have already had OPT at the master’s level cannot apply again at that level
  • PhD
    • Second PhD students who have already had OPT at the PhD level cannot apply for OPT again

• Students in STEM (Science, Technology, Engineering and Math) may apply for a 24-month extension during Post-Completion OPT if they qualify.
Who can apply for OPT?

• Any F-1 student who
  • Is in valid F-1 status
  • Has been enrolled full-time for one academic year (two long semesters)
  • Completes all degree requirements in the academic program listed on their I-20 and are eligible to receive their degree
    or
  PhD or master’s students who will complete all coursework and are enrolled in thesis/dissertation only.*

*Students who choose to do post-completion OPT while working on thesis or dissertation must graduate before the OPT end date. Students who do not graduate in time may be considered out of status.
Employment Authorization Document

- EAD = Employment Authorization Document
  - The card you receive from USCIS when your OPT is approved
- You may only begin work after the start date printed on your EAD card
Maintaining Status

• You **cannot** work before you have your EAD card and you **cannot** work until after the start date listed on your EAD card.

• Working on-campus is **prohibited** after the program end date listed on your I-20 unless you have received your EAD card and the job is related to your major

• You **may not** go to school to pursue a new degree while on OPT
  
  • New degrees require a new I-20 and full-time student enrollment
  • Part-time, non-degree study is acceptable while on OPT
Maintaining Status

• You will be out of status if you have more than 90 days of unemployment during any post-completion OPT. This means if you take too long to find a job, or if you lose your job, and don’t find another one, you may go out of status!

• Remember, only 90 days total unemployment is allowed during the 12 months of OPT!

• Use your time wisely!
Maintaining Status

“Who decides if the job is related to my major?”

• Students must justify how the job is related to their major

• Ask yourself:
  “Is there a clear connection between the job and my major?”
Maintaining Status

• Employment must be **full time** (at least 20 hours per week) and related to degree program

• Types of employment:
  • Paid
  • Unpaid
  • Internships
  • Multiple Employers (total hours must be at least 20 hours per week)

• Jobs on campus may not be student positions
Maintaining Status

• Keep records of all employment
  • Employer, dates of employment, title, hours worked, relation to your degree, copies of I-20’s, etc.

• You will need this information when applying for future benefits through USCIS (H1B, permanent residency, etc.)
Reporting Requirements

- You must report any changes to UNT within 10 days.
- This includes changes to:
  - Name
  - Address
  - Employer

Sample Explanations of a Direct Relationship

- **Bachelor’s degree in Electrical Engineering:** I work full time as an Electrical Engineer at ABC Corp., a government contractor. In my job, I analyze client requirements for electrical systems and provide them with cost estimates of such systems. My work requires understanding of electrical circuit theory, which I studied in-depth at the University of ABC.

- **Bachelor’s degree in Business:** I work full time as a Loan Officer at a mortgage company, Happy Homes, where I meet with clients and evaluate, authorize and recommend approval of loan applications. On a daily basis, I use the knowledge I gained in my credit analysis, sales and marketing classes that I took as part of my major program of study.

- **Master’s degree in Music:** I am working at a hospital playing the harp in patient rooms. I also conduct hands-on harp beginner workshops for long-term patients. On average, I work at the hospital 35 hours a week. My duties directly utilize the skills and knowledge I acquired from my coursework and degree in music therapy.

- **PhD in Computer Science:** I am employed as a Computer and Information Research Scientist at ABC Research Institute. I work as part of a team of scientists and engineers that designs experiments to test the operation of various software systems. My work builds on research in complex algorithms and machine learning, which I studied as part of my dissertation.

- **Master’s degree in Kinesiology:** I am working 25 hours a week in a health food store as a consultant for Self-Made Inc., designing and teaching exercise classes that are incorporated into a customer’s overall nutrition and exercise plan. My designs and customer instruction draw upon my studies and classwork in exercise therapy and physical reconditioning."
